POLYTHENE BAGS

Our Low Density polythene bags are excellent for packing virtually any product for transport, presentation or simply as a dust cover. Available in a wide range of sizes and thicknesses, we can also produce LD polythene bags to your size and colour, as well as providing a complete design and print service.

All special production runs of polythene bags can be produced as Anti-Static or printed with your own design

Usage key

Below is a key which relates to the typical usage of the refuse sacks in the table above.

- Office and domestic use
- Heavy commercial and industrial usage
- Commercial and industrial usage
- Heavy commercial and industrial expert usage
- Commercial and industrial expert usage
- Domestic and street cleansing usage

RESEALABLE BAGS

Plain, Clear 160-180 gauge 40-45 micron

Resealable poly bags provide an economical solution to countless packaging applications. This type of grip-seal bag stays firmly shut when sealed and ensures that your products stay protected.

POLYTHENE LAYFLAT TUBING

Layflat tubing, known as polythene tubing, is a continuous length of polythene tubing that creates custom bags of almost any shape and size. It protects products from dust and dirt during manufacture. This product is used to both improve presentation and add security. The polythene can be sealed with either a heat sealer or bag ties.

If you require a specific width or thickness of film, please ask our sales team as we can produce any combination, subject to minimum order quantities.

SHRINKFILMS

Used by leading food and drink manufacturers to provide safe transit packaging and enhance the shelf appeal of their multi-pack products.

PVC Centrefold Film

The original high clarity shrinkfilm which gives an excellent presentation and holds your product together securely. PVC Shrinkfilm responds quickly to heat and gives very reliable results. This film can be used in conjunction with manual, semi-automatic or fully automatic applications - a dependable option.

PVC CENTREFOLD FILM

CODE	WIDTH (mm)	WIDTH (metres)	FILM EQ THICKNESS	ROLL LENGTH
CFS250-19	250/500	10/20	19 micron	600 Metres
CFS250-25	250/500	10/20	25 micron	450 Metres

CFS550-25	550/1100	22/44	25 micron	450 Metres

Polyolafin Centrefold Film

Polyolafin is a highly versatile shrinkfilm ideally suited to high output applications. On an automated line Polyolafin gives greater yield and has greater puncture resistance than PVC. It gives a good presentation and performs well with irregularly sized packs.

POLYOLAFIN CENTREFOLD FILM

CODE	WIDTH (mm)	WIDTH (metres)	FILM EQ THICKNESS	ROLL LENGTH
FP300-19	300/600	12/24	19 micron	600 Metres

FP550-15	550/1100	22/44	15 micron	750 Metres

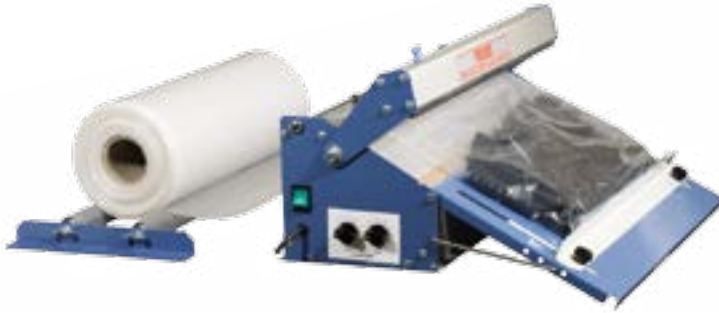

HEAT SEALERS

Heatsealers can be used with either Polythene Layflat Tubing or PVC/Polyolafin Shrinkfilm, just by using a different heat element - flatwire for Layflat Tubing and roundwire for shrinkfilm.

The most common version is the bar sealer which has a spring loaded hinge at one end and an adjustable heat controller for different thicknesses of film. You can also have the sealer complete with a film cutter to ensure that your seals are always neatly finished.

Where fast packing is required or both hands are needed to hold the package, we supply a foot operated magnet sealer which can be either a manually activated or automatic seal. This version of sealer can be supplied either on a height adjustable stand or as bench mounted. Highly efficient, reliable and very tidy, our heatsealers will help you to cut down on packing time.

Hand Operated Heat Sealers

The most popular version is the bar sealer. We supply this style of heat sealer in numerous sizes see table below.

HAND OPERATED HEAT SEALERS		
CODE	DESCRIPTION	MAX FILM WIDTH
P200	Impulse Heatsealer, hand operated	200mm
P200C	Impulse Heatsealer, hand operated - with film cutter	200mm
P300	Impulse Heatsealer, hand operated	300mm
P300C	Impulse Heatsealer, hand operated - with film cutter	300mm
P400	Impulse Heatsealer, hand operated	400mm
P400C	Impulse Heatsealer, hand operated - with film cutter	400mm
P500	Impulse Heatsealer, hand operated	500mm
P500C	Impulse Heatsealer, hand operated - with film cutter	500mm

Electro-Magnetic Heat Sealers

The electro-magnetic heat sealer can be operated using a foot pedal and is ideal for jobs that require both hands.

ELECTRO-MAGNETIC HEAT SEALERS	
CODE	DESCRIPTION
SMS350	Magnet Release Semi-Auto Impulse Sealer with Safety Cutter - 560 watt, 330mm x 4mm Seal
SMS500	Magnet Release Semi-Auto Impulse Sealer with Safety Cutter - 890 watt, 680mm x 4mm Seal
SMS700	Magnet Release Semi-Auto Impulse Sealer with Safety Cutter - 890 watt, 680mm x 4mm Seal

HAND HELD HEAT SEALERS

Constant heat sealer tongs for PE/PP/PVC 150mm x 2mm

Light but robust with adjustable temperature control from 30°C to 220°C, and 25 watt power, seals most films up to 2 x 600 gauge, weighs 650g.

HEAT SEALER

CODE	DESCRIPTION	PK
PCS-150	Heat Sealer	1

Constant heat crimp sealer for cellophane/foil 150mm x 15mm seal

Crimp seals cellophane and most foils with adjustable temperature control from 30°C to 220°C, and 50 watt power, weighs 770g.

CRIMP SEALER

CODE	DESCRIPTION	PK
PCS-150-F	Crimp Sealer	1

Impulse sealing tongs including transformer 450mm x 3mm seal

Effective for film thickness 2 x 500 micron, aluminium barrier foil and thermoplastics. Adjustable weld time.

Versatile, heavy duty tongs make light work of the heaviest sealing jobs. The comfortable grips and high power output ensure effective sealing of materials up to 2 x 500 microns thick

Engineered for both safety and efficiency. Convenient hooks allow the tongs to be safely hung and stored, allowing residual heat to dissipate.

IMPULSE SEALING TONGS

CODE	DESCRIPTION	PK
IWT-450	Impulse Heat Sealing Tongs	1

Impulse sealing tong spares Kit

SPARES KIT

CODE	DESCRIPTION
IWT450-SK	Maintenance Kit with heating element, silicone rubber, upper & lower PTFE

Industrial Model

Magnet Release Impulse Sealer with double element and industrial stand

- Designed to efficiently seal heavy duty bags made from almost any heat sealable material.
- Upper/lower 4mm wide heating elements ("on off" facility for upper), seal bags up to 680mm wide.
- Electrical seal arm motor for manual or foot operation has timed release for consistent seal quality.
- Mounted on mobile industrial stand with lockable castors, allowing adjustable heavy duty work table which can hold up to 50kg
- Dimensions: L770mm x W470mm x H1090mm
Weight: 18.8kgs

Mounted on an industrial mobile stand with lockable castors that allows the sealer angle to be adjusted.

Dual timers for heating & cooling.

INDUSTRIAL MODEL

CODE	DESCRIPTION
SMS700 D2-EM-IST-WTS	Magnet Release Impulse Sealer with double element and industrial stand

Magnet release impulse sealer with foot pedal

- Hand or foot operated, factory fitted electric seal arm for faster action and less operator fatigue
- Safety cutter fitted
- Dual timers for heating & cooling

MAGNETIC RELEASE IMPULSE SEALER

CODE	DESCRIPTION
SMS500-EM	Magnet Release Impulse Sealer with electric foot pedal 660 watt 480mm x 4mm seal

More options are available to help you tackle heavy duty jobs. Including double 8mm width seals, top and bottom elements, filling chutes for repeated packs and heavy duty machine stands.

HEAT SEALER ACCESSORIES

Heavy Duty Unrolling Devices

This unrolling device lines up your polythene roll and allows you to unroll with ease.

HEAVY DUTY UNROLLING DEVICES

CODE	DESCRIPTION
AR/LD350	Heavy Duty Unrolling Device for film up to 350mm wide
AR/LD500	Heavy Duty Unrolling Device for film up to 500mm wide
AR/LD700	Heavy Duty Unrolling Device for film up to 700mm wide
AR/LD1000	Heavy Duty Unrolling Device for film up to 1000mm wide

Adjustable Tables

This adjustable table allows a pre-determined length of polythene to be measured accurately during a repetitive process.

ADJUSTABLE TABLES

CODE	DESCRIPTION
WT350	Table adjustable to 4 Positions with Moveable stop bar for SMS350
WT500	Table adjustable to 4 Positions with Moveable stop bar for SMS500
WT700	Table adjustable to 4 Positions with Moveable stop bar for SMS700
WT1000	Table adjustable to 4 Positions with Moveable stop bar for SMS1000

Foot Pedal

This product allows the operator to operate the heatsealers sealing arm using a foot pedal. A great product for when two hands are needed as part of an operation.

FOOT PEDAL

CODE	DESCRIPTION
PD	Foot Pedal with Bowden Cable suitable for all sizes of SMS Heat Sealers
