

Stabilising Dynamic Loads

The non-stretch pallet wrap which combines ease of use with superior load stability.

Dynawrap pre-stretched pallet wrap can save tonnes of waste pallet wrap film, cardboard cores and cartons every year, preserving the environment and keeping costs down.

Peace of mind... Eliminate load movement in transit

Dynawrap is a pre-stretched 3-layer co-extruded material, virtually all stretch is removed ensuring minimal movement in transit.

Prevent pallets sticking together

Dynawrap has a 100% one side cling which prevents pallets sticking together in transit or in storage, this reduces breakages and the risk of lost loads.

Reduce operator fatigue

Dynawrap is not a stretch film; operators merely have to hold the film taut as they wrap the pallet which significantly reduces back strain and physical exertion.

Reduce your packaging waste

From only 7 micron, Dynawrap is a lightweight but very strong performance film. A constant width when applied means a reduction in packaging waste by up to 70%.

Eliminate roll waste caused by edge damage

Dynawrap has reinforced edges eliminating roll edge damage as well as providing extra strength to the film.

Reduce your wrapping costs

Less film is required using Dynawrap than the conventional stretch film to stabilize loads. Dynawrap offers the lowest wrapping cost per pallet... guaranteed.

15 metres of conventional 20mu film = 130 grams

15 metres of Dynawrap film = 39 grams

DYNAWRAP MACHINE WRAP

MACHINE WRAP

CODE	DESCRIPTION	THICKNESS	PALLET	BOX QTY	COLOUR
DYNA-MBK	450mm x 2500 metres	10 micron	40	1	Black
DYNA-VMHQ	430mm x 2500 metres	8 micron	40	1	Clear
DYNA-MH10	430mm x 2500 metres	10 micron	40	1	Clear

DYNAWRAP FLUSH CORE

The classic pre-stretched pallet wrap.

FLUSH CORE

CODE	DESCRIPTION	THICKNESS	PALLET QTY	BOX QTY
DYNA-V6	400mm x 600 metres	6 micron	192	6
*DYNA-V6L	400mm x 600 metres	6 micron	192	6
DYNA-V7	400mm x 600 metres	7 micron	288	6
DYNA-V8	400mm x 600 metres	8 micron	156	6
DYNA-V10	400mm x 500 metres	10 micron	288	6

* DYNA-V6L is supplied on a pallet secured but not in boxes of 6.

DYNAWRAP EXTENDED CORE

Allows the operator to grip the core extension for easy application.

EXTENDED CORE

CODE	DESCRIPTION	THICKNESS	PALLET	BOX QTY
DYNA-VX6	400mm x 600 metres ex core	6 micron	240	6
DYNA-VX7	400mm x 600 metres ex core	7 micron	240	6
DYNA-VX6L	400mm x 600 metres ex core	6 micron	240	6
DYNA-VX8	400mm x 600 metres ex core	8 micron	192	6

DYNA-BLUE

A pre-stretched wrap used mainly for wrapping food related items or in the protection of high value goods.

DYNA-BLUE

CODE	DESCRIPTION	THICKNESS	PALLET	BOX QTY
DYNA-BLUE	400mm x 600 metres	6 micron	384	6

DYNAWRAP CORELESS

The ultimate environmentally friendly product. The film is wound without a core and is applied with a reusable dispenser, eliminating cardboard and 'end of roll' wastage.

DYNAWRAP CORELESS

CODE	DESCRIPTION	THICKNESS	PALLET	BOX QTY
DYNA-CL	390mm x 600 metres	7 micron	384	4
